

Mango Health - V1 - SHORT - 164 words (~1:00)

Say hello to Mary. She's using the Mango Health App to be healthier. And when she's healthier, she's happier.

Mango Health is a bit like a fantastic friend -- somebody who cares about you and is wicked smart. It keeps track of the medications you're taking, courteously reminds you to take them, and alerts you about possible safety issues.

To get started, Mary simply enters the over-the-counter drugs, prescriptions, and supplements she's currently taking, like so. For each one, she can set up reminders so she'll never miss a dose. Then, she can review potentially dangerous interactions with other things she's taking, as well as food and drink.

Mary earns points every time she takes her medications on schedule. These points really start to pile up. Soon, she's unlocked some pretty irresistible gifts. A Gap gift card? Free songs on iTunes? Just for taking good care of yourself? Who knew!

Healthier. Happier. That's the Mango Health App. Download it for free from the App Store.
